Subject: DOT STIP
Second Channel Crossing

As owner of a large block of land on West Douglas, and continuing our long standing support to continue and to complete this project, Goldbelt heartily supports the North Douglas Second Channel Crossing.

We feel it is necessary for a large number of reasons, including but not limited to an alternate route to and from Douglas Island in the event something happens to the bridge; an alternate route to downtown in case something happens to Egan expressway, such as loss of the Salmon Creek Dam; increase ability to develop much needed harbor and industrial facilities on West Douglas; shorten the drive to Eaglecrest, shorten the drive to commercial activities in the Airport and Lemon Creek areas.

I am available to answer any questions you may have
